

# Baileys Seed to School Meal Guide

If your child is currently in Reception, Year 1 or Year 2 they are entitled to receive free school meals as part of the government's **Universal Infant Free School Meals** initiative that aims to provide all children with a healthy, balanced meal at lunchtime.

Eating a healthy lunch at school has been shown to improve children's concentration and behaviour in the classroom and provides them with essential nutrients that they need to develop and grow.

As a Gold 'Food for Life' Caterer our menus provide children with not only a healthy, balanced meal but also a lunch made from local, seasonal and often organic produce.

## How do I sign up for school meals with Baileys Catering?

Simply follow our Seed to School Meal Guide to order your child's school meals using our convenient and user friendly online booking system – DinnerPay.

### Step 1 – Receive authentication code

You will receive a letter from your child's school that includes an authentication code that you use to set up your personal account on DinnerPay.

Parent registration

Registration help  
Please enter your details, including the authentication code for one child. This can be found on your child's DinnerPay registration letter.  
Additional children may be added to your account after registration.  
We recommend using a strong password containing uppercase & lowercase letters, numbers and symbols.  
For more help, see DinnerPay FAQs →

## Step 3 –

### Book meals together with your child

Look at the meal options together with your child and decide what they would like to have. You can book meals up to a term in advance. Discussing this with your child helps him/her know what to expect at lunchtime which often means that he/she is more likely to eat and enjoy his/her school meal.

## Step 4 –

### Changing booked meals

Your child's school meal choice can be changed or cancelled at any time up until **8am** in the morning of that meal. If you would like to cancel a meal simply select 'no meal'. If you have more than one child or already have an account for a child already having school meals you can simply click 'Add another' child in settings. You will need an individual authentication code for each child.

## Step 5 –

### Children enjoying their lunch

So now your child has participated in choosing their own school lunch and you have peace of mind that your child will enjoy a healthy, balanced meal at lunchtime.
